## WORK EXPERIENCE

Apr 2023 - Current

### IT Development Staff

PT. Brantas Abipraya | Contract

- Worked on a variety of IT-related projects, such as a dashboard visualization website that shows corporate results and progress internally with **Google Looker Studio**.
- Conducted research to develop weather forecast applications for site visit planning during construction.

Nov 2021 - Mar 2023

### Full-Stack Developer

Insignia | Full Time

- Designed an efficient and sustainable dashboard template by utilizing **React** and **Chakra UI**. The template was used to manage various items and proved to be highly effective.
- Developed ETL (Extract, Transform, Load) tools that feature drag-and-drop functionality. These tools were created to simplify the data processing and migration process.
- Built a website for online travel and tour booking that offers a range of services, including the ability to book flights, trains, hotels, and trips.
- Designed a virtual campaign website aimed at raising awareness for a specific cause or event.

May 2021 - Nov 2021

### Front-End Developer

Maven Digital Asia | Full Time

- Improved and developed a CRUD dashboard for Cleaning Service Product management using the **React** framework.
- Designed and developed a **WordPress** landing page and an e-commerce website.
- Created a landing page with a career portal by utilizing **React**, **Tailwind CSS**, and **Next.js** framework.
- Built an HTML static page for insurance registration with the support of the **Tailwind CSS** framework.

Aug 2020 to Mar 2021

### Full-Stack Developer

Thesis

- Developed a web platform for IoT Device real-time Data Recapitulation using **Laravel**, **Bootstrap**, and **Firebase Firestore**.

Feb 2021 to Mar 2021

### Front-End Developer

Undip Career Center | Freelance

- I developed a web-based Job Fair with a range of advanced features using the **Vue.js Framework**.

Jan 2019 to Dec 2019

### Full-Stack Developer

Lembaga Psikologi dan Psikometri RSF | Part-Time

- Using **Native PHP** and **Bootstrap**, I developed the DISC Test program to enable the company's primary business to be performed digitally.
- On Codacy, it received a "B" grade with just **38%** of issues and **0%** complexity.
